Other Stuff:

In a world where time is money, lawyers are masters at stalling. Where communication is crucial, they hide behind mumbo-jumbo.

MEN SAY: “Why buy the cow when you can get the milk free?”

WOMEN SAY: “Why marry the pig for a little sausage?”

It costs \$165,000 a year to keep someone at Rikers Island.

Two-thirds of the world's lawyers are in the U.S. The government spends \$600 billion in grants every year without supervision.

Huntington Town is offering free sunscreen to beachgoers (sponsored by Councilwoman Susan Berland, an attorney).

After Suffolk Judge Garguilo ordered the sale of a litigant's home, it was discovered that the Real Estate Broker purchased and now lives in the home!

Only in America: Plastic water bottles are legal, plastic bags are illegal. Hunting and fishing without a license is illegal; entering the country illegally is ignored. Parental permission is required for a student to take aspirin but not for an abortion. You must show identification to take out a library book, but not to vote. You can buy two 16 oz. sodas but not one 24 oz. in New York. A woman can be strip-searched in a wheelchair but not in a burka. Work and success mean more taxes and regulations. Loafing is rewarded with free food money, medical care, housing and smart phones. Prisoners get better medical coverage than veterans. Eleven states have more people on Welfare than working!

Since 1980, 92% of Democratic candidates were lawyers. Twenty-two percent of Republicans were attorneys. (*Cato Institute*).

A woman was awarded \$400 million by Johnson & Johnson. She used their talcum powder and now has ovarian cancer.

A spokesman for the State Court System, David Bookstaver, admitted pocketing \$166,000 plus pension for working as little as two (2) days per week. The president of the Supreme Court Officer's Association said that there are other employees of O.C.A. making more than \$150,000 for no-show jobs. (*NY Post*, 8/17/17).

Obamacare Coverage: 6.5 million Americans violated the law and paid a fine rather than purchase coverage. (*1776 Coalition*, Aug. 9, 2017).

SEE: "You have the Right to Know the Law", by The Law Team on YouTube - informative videos. (<https://www.youtube.com/watch?v=PrGawnaj8rs>). Unlawful prevention of public access to records is a violation of NYS Statute S 240.65. This statute applies to both Judges and Clerks (the clerks control that Courthouse).

"The Lawyer, The Addict" - The ABA's Commission on Lawyer Assistance Program's most recent report identified alcohol as the No. 1 substance-abuse problem for lawyers. The second abuse was prescription drugs. About 21% of lawyers have a drinking problem, 28% struggle with mild or serious depression. Seventy five percent of attorneys would not answer questions about drug use. (*New York Times*, 7/15/17). If you have a problem with a lawyer, ask for a urine analysis.

One of the country's largest law firms has hired a robot lawyer, ROSS, as the world's first artificial intelligence attorney (*Washington Post*, 5/16/16).

Robots in the legal profession have already saved \$4 million in traffic tickets, see Lawgeex.com or donotpay chatbot (*PC World*, 6/28/16).

History lesson on your Social Security Card Up till 1980, the Social Security card stated the number was not to be used as identification.

A man ordered to pay child support for kids that were not his (*NY Post* 7/23/17).

A young man disappointed his family when he dropped out of Law School to pursue a musical career - Bing Crosby (Giddin, *Bing Crosby: Pocketful of Dreams*, 2001).

Americans for Legal Reform has become aware of a LI company called, Guaranteed Returns, and its principals, who have been convicted of stealing nearly \$180 million of clients' money (www.justice.gov, 3/24/17).

The firm hired to by the US Govt. to distribute \$4 Billion to victims of the Bernie Madoff Ponzi scheme, has racked up \$38 Million in billings, while many victims are still waiting for their share (*Investment News.com*, 5/29/17).

When our Founding Fathers envisioned our government, they were tired of being governed by a King and a Parliament that ignored their pleas and took liberties away. They created three branches of government, consisting of citizens elected by the people to represent their views. Today many congressmen are career politicians who have been in office for years. Instead of fighting for their constituents, they fight for their own personal interests. We are tired of government acting as Masters instead of Servants. FIRE the career politicians! DO NOT VOTE FOR INCUMBANTS!!

Robert Ripp, Town of Oyster Bay Whistle Blower, is running for Town of Oyster Bay Supervisor in his fight to end corruption in government.
